

2012 SPRING SEMINAR

The Leader in Osteopathic Emergency Medicine

APRIL 10-14, 2012

The Westin Kierland Resort & Spa
Scottsdale, Arizona

EMERGE WITH US IN 2012!

Bold thinking and emerging ideas have fueled the American College of Osteopathic Emergency Physicians from the start. There was no road map in 1975 when a small group of physicians came together to create this organization. They relied on their vision and their willingness to chart new territory — a spirit that continues to shape ACOEP today.

In that vein, we've branded our Spring Seminar and Fall Scientific Assembly under the theme "Emerge." This powerful new identity, with its bold, dynamic logo, conveys the vital and growing role of these meetings in advancing our profession. It also indicates the exciting offerings to come in 2012.

JOIN US FOR ACOEP'S 2012 SPRING SEMINAR AND SEE FOR YOURSELF.

This premier educational event is your best opportunity to:

- Learn about the newest advances in emergency medicine
- Discuss the latest technologies and treatments
- Hear updates on the most important topics in the field
- Explore ways to better your practice
- Share ideas and experiences with your colleagues

*A record number of osteopathic
emergency physicians and professionals
are expected in Scottsdale in April.
We hope you'll be among them!*
